Paint Very Likely the Source of Plume in Rockhouse Fork Creek

Conclusive testing done by the state on water samples taken from a yellow-green plume in Rockhouse Fort Creek that was reported to Environmental Response Team of the Kentucky Department for Environmental Protection (KYDEP) on April 11, has revealed the presence of titanium, which does not typically occur in surface water...[Continue reading](#)

Drought, Water Loss Workshop will Teach Utilities How to Manage Dry Conditions

The Kentucky Department for Environmental Protection, Kentucky Rural Water Association and U.S. Environmental Protection Agency (EPA) are sponsoring a free drought-and-water-loss workshop for small and medium-sized drinking water utilities. The workshop will be held on Tuesday, May 10, 2016, from 8:30 a.m. until 4 p.m. EDT, at the Prestonsburg Mountain Arts Center, which is located at 50 Hal Rogers Dr., Prestonsburg, KY 41653. Registration will begin at 8 a.m...[Continue reading](#)
